Gov. Corbett Announces 2011 Environmental Excellence Award Winners

Gov. Tom Corbett this week announced 13 environmental projects from across the state will be awarded the 2011 Environmental Excellence Award.

The projects include abandoned mine drainage reclamation, solar panel installation, and reducing the environmental impact of glass processing.

“These businesses, schools and organizations have demonstrated a commitment to finding new approaches to reduce our impact on the environment,” Corbett said. “I commend them for their efforts, as these projects certainly raise the bar for all citizens, businesses, and organizations to be more environmentally conscious.”
